

Seafood Powders

INTERNATIONAL
Ingredient Solutions

International Ingredient Solution's seafood extract powders can be used to enhance a variety of seafood flavors in addition to their natural sodium enhancing ability. These products deliver balanced, clean seafood characteristics. Our seafood extract powders are made from a natural extraction process, which are then concentrated and spray dried. Each product boasts a unique and distinct flavor profile.

Anchovy Extract Powder (AEP-102)

Provides an authentic, anchovy fish character with fish broth profile.
50 lb. box

Clam Extract Powder (CEP-023)
