

International Ingredient Solutions Yeast Extract product line provides savory flavor ingredients that mirror process flavors in functionality, while delivering a deeper flavor profile. Our yeast extracts eliminate the need to add sugar reducers and additional amino acids. The result is an authentic, signature flavor contribution.

AYE Classic (AYE-001)

“Industry standard” yeast extract delivers a **clean savory flavor** profile and excellent flavor enhancing functionality. Due to this clean profile AYE Classic is **highly effective at maximizing the flavor support of poultry, beef, pork, seafood, vegetables, vegetarian dishes, and ethnic based applications.**

AYE Classic Carne Roast M (AYE CR-001-M)

The Carne Roast extract creates an umami mouth feel while **delivering a notable meat taste.** It provides an intense, authentic flavor. It is a **brothy yeast extract** that also **offers lightly roasted characteristics.**

AYE Classic Low Sodium (AYE C-002)

A **low sodium alternative yeast extract** similar in functionality and taste characteristics to the AYE Standard.

AYE Full Flavor Choice (AYE FFC -003)

Rich in taste enhancing nucleotides, with **approximately 12% naturally occurring IMP and GMP.** Boasts a clean taste profile. This product has been **utilized for flavor enhancement as well as salt reduction** in a variety of applications including condiments, dressings and sauces, side dishes, and meat products.

AYE Full Flavor Robust (AYE FFR-002)

This product **contains more than approximately 4% naturally occurring GMP and IMP.** It is a versatile flavor enhancer that imparts a **sweeter savory flavor,** which is fully expressed when used in conjunction with other flavor systems.

AYE Full Flavor Universal (AYE FFU-001)

Higher Nucleotide yeast extract, which can be **helpful in basic soup and sauce formulation.**

AYE Standard (AYE S-002)

Imparts a **general savory stock type flavor** that also synergistically boosts other savory notes present in most savory applications.

*Our products are Kosher certified, allergen free, and vegetarian.
All products are natural and are not derived from genetically modified organisms.*
